

IN THE SPECIFICATION:

Page 1, paragraph [0006], please rewrite as follows:

~~The present invention is as follows:~~ SUMMARY OF THE INVENTION

~~<The invention as described in claim 1>~~

A colored sanitary tissue paper comprising: a dye being added to a pulp raw material, wherein a color difference between before and after dyeing is 15 or more in D value of Hunter's color difference formula defined in JIS Z 8730;  $D=(\Delta L^2+\Delta a^2+\Delta b^2)^{1/2}$ .

Page 2, paragraph [0007], please rewrite as follows:

~~<The invention as described in claim 2>~~

A colored sanitary tissue paper comprising: a dye being added to a pulp raw material, wherein a color difference between before and after dyeing is 82.0% or more in L value and a range of 15 to 40 in D value of Hunter's color difference formula defined in JIS Z 8730;  $D=(\Delta L^2+\Delta a^2+\Delta b^2)^{1/2}$ .

Page 2, paragraph [0008], please rewrite as follows:

~~<The invention as described in claim 3>~~

The colored sanitary tissue paper of claim 1 or 2, wherein further includes a softening agent and a paper strength agent as well as a dye which are added to the pulp raw material in the quantity per one ton of paper stuff, 0.1-15 kg/t of the softening agent, 0.1-25 kg/t of the paper strength agent and 0.05-15 kg/t of the dye.

Page 2, paragraph [0009], please rewrite as follows:

~~<The invention as described in claim 4>~~

The colored sanitary tissue paper of any one of claims 1 to 3, comprising may further include a pink color tone and L value of 82.0% or more, preferably 82.0-98.0%, a value of 12 or more, preferably 12-22, and b value of 5 or less, preferably -5 to 5.

Page 2, paragraph [0010], please rewrite as follows:

~~<The invention as described in claim 5>~~

The colored sanitary tissue paper of ~~any one of claims 1 to 3, comprising~~ may also include a blue color tone and L value of 82.0% or more, preferably 82.0-98.0%, a value of -5 or less, preferably -15 to -5, and b value of -5 or less, preferably -15 to -5.

Page 2, paragraph [0011], please rewrite as follows:

~~<The invention as described in claim 6>~~

The colored sanitary tissue paper of ~~any one of claims 1 to 3, comprising~~ may also include a yellow color tone and L value of 82.0% or more, preferably 82.0-98.0%, a value of 0 or less, preferably -13 to -3, and b value of 14 or more, preferably 24-34.

Page 3, paragraph [0012], please rewrite as follows:

~~<The invention as described in claim 7>~~

The colored sanitary tissue paper of ~~any one of claims 1 to 3, comprising~~ may also include a green color tone and L value of 82.0% or more, preferably 82.0-98.0%, a value of -6 or less, preferably -24 to -14, and b value of 8 or more, preferably 9-19.

Page 3, paragraph [0013], please rewrite as follows:

~~<The invention as described in claim 8>~~

The colored sanitary tissue paper of ~~any one of claims 1 to 7, being~~ is an embossed colored sanitary tissue paper with convex parts between embosses relatively formed by scattered embosses, wherein an embossing-pressure imparted area makes up 5 to 20% of the total.

Page 3, paragraph [0014], please rewrite as follows:

~~<The invention as described in claim 9>~~

The colored sanitary tissue paper of ~~any one of claims 1 to 8, wherein~~ includes waste paper pulp [[is]] compounded in 0 to 50%.

Page 3, paragraph [0015], please rewrite as follows:

~~<The invention as described in claim 10>~~

A production method of colored sanitary tissue paper, comprising the steps of: firstly adding a cationic softening agent to a pulp raw material, then adding an anionic dye thereto, and obtaining a colored sanitary tissue paper with a color difference between before and after dyeing being 15 or more in D value of Hunter's color difference formula defined in JIS Z 8730;  $D=(\Delta L^2+\Delta a^2+\Delta b^2)^{1/2}$ .

Page 5, between paragraphs [0021] and [0022], delete "Best mode for carrying out the Invention" and substitute therefor --DETAILED DESCRIPTION OF THE INVENTION--.
